

COMPACT ONE & TWO BED COTTAGES

50m²

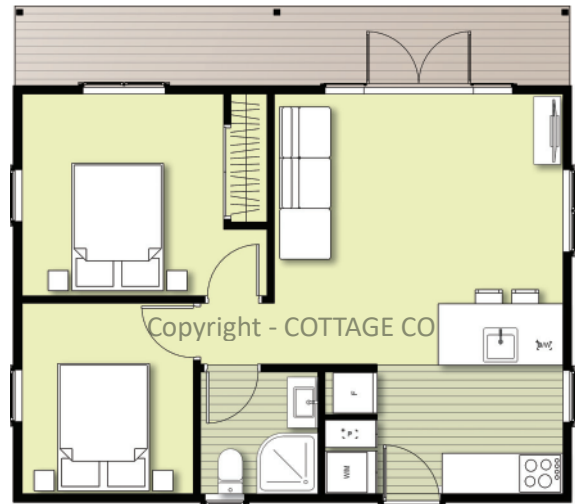

Our charming Compact **COTTAGE CO** Cottages are a quality product which offer a simple, yet modern solution to easy living. In this size we offer four different options. The first two have a modern and open plan layout with different room configurations, and the other two designs are set out in a more classic style with living in the front and bedrooms in the back. Kitchens provide some variety also and dining and living areas all open out onto a full length verandah and deck which you can sit out on and soak up the morning and afternoon sun. The typical modern fixtures, floor coverings, architraves, T&G panelling with dado, laundry and double glazing also help to transform this space into a warm and inviting place to call home.

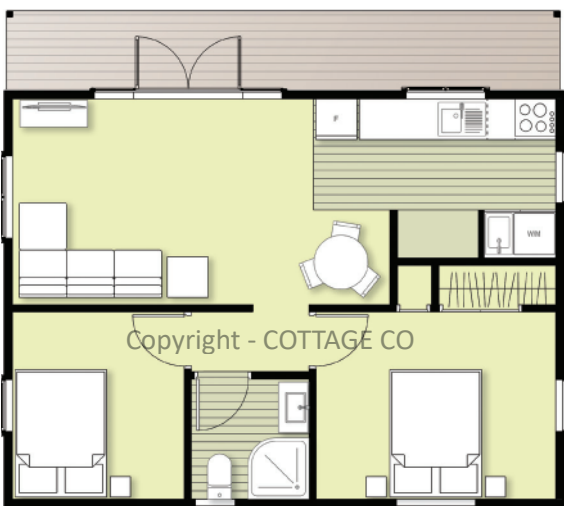

So come in and take a walk through one and talk to us about various options to make this cottage yours.
